Education

IILM University, Greater Noida

Aug 2023 – May 2027

B.Tech in Computer Science and Engineering

CGPA: 8.69/10

Experience

Full Stack Developer Intern at PW Finz [Certificate-Link](#)

18-May-2026 – 18-Aug-2026

PHP, Laravel, Blade, JavaScript, HTML, CSS, MySQL

- Developed and maintained full-stack fintech web applications using **PHP, Laravel, Blade, JavaScript, HTML, CSS, and MySQL**.
- Built and integrated secure **REST APIs**, improving communication between frontend and backend services.
- Designed and optimized database schemas, queries, and backend workflows to improve application performance and scalability.
- Debugged production issues, implemented feature enhancements, and improved overall user experience and system reliability.

Projects

HungryHub – Online Food Delivery Platform 🍔

Spring Boot, React, JWT, MySQL

- Built a role-based full-stack food delivery platform using Spring Boot, React, JWT Authentication, and MySQL.
- Designed secure REST APIs with JWT-based authentication and authorization.
- Applied Low Level Design (LLD) principles, UML diagrams, and modular architecture for scalable development.
- Optimized database queries and backend workflows to reduce API response time and improve application performance and scalability.

AI-Based Crop Recommendation System 🌾

Python, FastAPI, TensorFlow, AWS

- Developed an AI-powered crop recommendation system using machine learning models trained on soil, weather, and environmental datasets.
- Built REST APIs with FastAPI to deliver crop predictions in real time.
- Designed an interactive dashboard enabling farmers to make data-driven crop selection decisions.
- Leveraged TensorFlow and AWS services for scalable deployment and model serving.

Technical Skills

Programming Languages : Java, Python, PHP, C, JavaScript

Frameworks : Spring Boot, Spring Framework, Laravel, Hibernate, FastAPI

System Design : High Level Design (HLD) , Low Level Design (LLD), UML, Design Patterns, Microservices

Artificial Intelligence : Machine Learning, Deep Learning, TensorFlow, Scikit-learn

Generative AI : LLMs, Retrieval-Augmented Generation (RAG), AI Agents

Databases : MySQL, MongoDB

Cloud & DevOps : AWS, Docker, Kubernetes, CI/CD, GitHub Actions

Tools : Git, GitHub, Postman,

Certifications

Oracle Cloud Infrastructure (OCI) 2025 Generative AI Professional

Aug 2025

AWS Academy Machine Learning Foundations

Feb 2025

Meta Front-End Development Professional Certificate

Nov 2025

Achievements

- Achieved the **Knight Badge** on LeetCode and solved **500+** coding problems across LeetCode and GeeksforGeeks, demonstrating strong Data Structures, Algorithms, and competitive programming skills.
- Selected for **3rd Position** among **45 competing teams** at the Tech-Craft College Technical Fest.
